Memoranda.

BETTER LATE THAN NEVER.—Through the latticed window came the soft droning of countless insects, as Merriam, trilling slowly, rose from the piano stool and gazed wearily across the intervening marsh that separated her father's ancestral hall from Hoboken proper. "Why does he not come?" she muttered. "For three long years I have waited." Just then a step was heard on the gravel outside, and a young man's face

appeared in the door. With a glad cry Merriam sprang into his arms. "At last!" she sobbed. "My darling, why have you delayed so long?" Gently smoothing back the tresses from the pure young face upturned to his, he replied. "Do not agitate yourself, my darling. I merely stopped to sew on a button."

"Do you like cod fish balls, Mr. Stubbs?" "I don't know, Miss, I never attended any."

HALL'S (REGISTERED)
LUNG RESTORER
FOR COUGHS

CROWSHAW, BENTLEY, Near ATHERSTONE,
SIR,—Please to send me one bottle of your "LUNG RESTORER," as I find it very good in Coughs and Bronchitis, for my little boy; in fact I cannot get anything to equal it. But I cannot get it in Atherstone, as the chemists do not keep it. By sending you will oblige.

For **COUGHS**,
Colds, Bronchitis,
Asthma.
HAS SAVED THOUSANDS
OF LIVES.

**NEVER
FAILS
TO GIVE
INSTANT
RELIEF.**

MRS. SHAKESPEARE.

IS A REMEDY OF OVER 40 YEARS' STANDING.

ON
CONSUMPTION

And its Successful Treatment, Chronic
Bronchitis, Asthma, &c., &c.

READ MR. GEO. THOS. CONGREVE'S NEW WORK on the causes, symptoms, progress, and successful treatment of this fell disease, with 133 cases of cure.

MR. CONGREVE has just published an **APPENDIX** to the above work on Consumption, &c., containing 222 cases, which have appeared in the weekly papers, from 1881 to the present year, to many of which recent notes are added, proving that the CURES have been FINAL AND PERMANENT.

The Book on Consumption, with Appendix, in One Volume, Bound in Cloth, Post Free
for ONE SHILLING, on Application to the Author,

COOMBE LODGE, PECKHAM, S.E.

Coughs, Asthma, Chronic Bronchitis, &c.

**CONGREVE'S
BALSAMIC ELIXIR**

Is an invaluable remedy, and may be had of any Druggists, in Bottles at 1/1 $\frac{1}{2}$,
2/9, 4/6, 11/0, and 22/0.

TWICKENHAM.

HEALTH NOTES.

THE EFFECT OF SOAP ON THE SKIN.—When soap is used for washing the skin—says Dr. Erasmus Wilson—the excess of alkali contained in it combines with the oily fluid with which the skin is naturally bedewed, removes it in the form of emulsion, and with it a portion of the dirt. Another portion of the alkali softens and dissolves the superficial stratum of the scarf-skin (this is the insensitive skin which the needlewoman pierces in the operation of sewing on the finger; it is the scarf-skin which the cuttler shaves in order to test the sharpness of his blade), and, when this is rubbed off, the rest of the dirt disappears. So that every washing of the skin with soap removes the old face of the scarf-skin, and leaves a new one; and were the process repeated to excess, the latter would become so much attenuated as to render the body sensible to a touch too slight to be felt through its ordinary thickness. On the other hand, where the scarf-skin and the dirt are rarely disturbed by soap, the sensibility of the skin is necessarily benumbed. Soap, therefore, is the best and proper detergent for the skin. Other means than soap for the purification of the skin are highly objectionable—such as wash-powders; they are sluttish expedients, half-doing their work, and leaving all the corners unswept.

A CURE FOR HEADACHES.—Brushing the hair and shampooing are recommended for the relief of headache. “Amongst the accessories for the relief of headache,” says one writer, “I would mention the value of having the hair smartly and vigorously brushed by a hair-dresser during the coming on of a headache, and the circular brush which is prompted to action by machinery is more soothing in its influence than the ordinary brush, when controlled solely by the hand of man. For a neuralgic headache and for rheumatism of the scalp, the circular brushing by machinery is only equalled by the comfort of sponging the head with hot water; and it outvies the sponge, inasmuch as the patient has nothing to fear from catching cold after the operation.

THE BATH.—The employment of baths in order to preserve health and ward off disease has been hitherto greatly neglected by some classes of the community. The effect which baths exert both physically and morally is very considerable, for, besides influencing the body for good, they exert a powerful influence on the mind as well, and in the case of children and young persons especially this mental effect is of very great importance.

ANTAKOS. CORN

(Hard or Soft,)

IMMEDIATELY RELIEVED,

And ultimately cured
by

ANTAKOS.

ANTAKOS.

Do not suffer any longer, but send to the nearest Chemist for a box of ANTAKOS. It is a simple plaster, and is applied in a moment.
Price 1s. 1½d.

"Numberless remedies have been suggested and patented for the removal of corns, but not until recently has the suffering public had any chance of obtaining the relief so earnestly desired. Now, however, a really unfailing remedy for corns of every description has been discovered. This remedy is called ANTAKOS; it is protected by letters patent, and as it consists only of a simple plaster, no one need fear to use it. It will be found most efficacious, and it should be adopted by everybody who suffers from hard or soft corns."—*Civil Service Gazette*.

Price 1s. 1½d.

ALL CHEMISTS SHOULD HAVE IT IN STOCK.

Sole Proprietors:—BARCLAY & SONS, Limited, LONDON.

TAYLOR'S ALTERATIVE AND FEVER POWDERS, FOR CHILDREN.

The ALTERATIVE POWDERS are particularly recommended for Infants at the time of Teething, also for Worms, Convulsions, and other disorders to which children are liable.

The FEVER POWDERS are given with the greatest possible success in decided cases of Fever, also in Measles, Influenza, and all those diseases attended with febrile symptoms.

TAYLOR'S POWDERS were first used in his private practice, more than fifty years ago, by Mr. Taylor, Surgeon, Norwich; and are now prepared by the

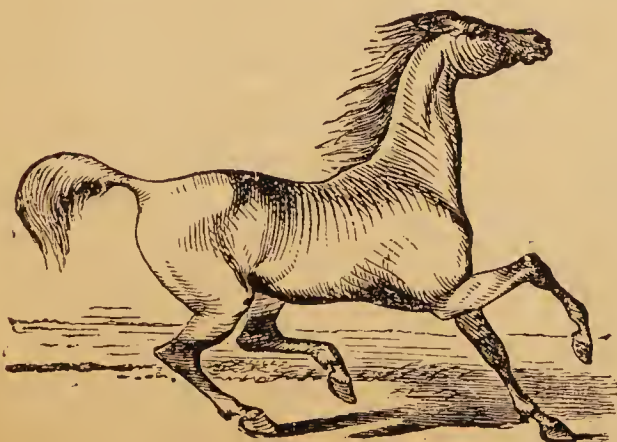

SOLE PROPRIETORS:—

BARCLAY & SONS, Limited, 95, Farringdon St., London.

The ALTERATIVE and FEVER POWDERS are *distinct* Medicines, and are sold in separate boxes of 2s. 6d., 4s. 6d., 11s., and 21s.

The 2s. 6d. Boxes contain Twelve Powders.

LEEMING'S ESSENCE For LAMENESS IN HORSES.

This Essence Cures Strains of the Back Sinews, also Slips and Strains of the Shoulders, Stifle, Hough, Whirlpool, Knee, Fetlock, and Coffin Joints. It makes the quickest and surest cures of any article yet known; and horses may be worked during the time of cure.

PRICE 2/6.

CAUTION.—It having come to the knowledge of BARCLAY & SONS, that persons, both at home and abroad, have been preparing and offering for sale an imitation of LEEMING'S ESSENCE, they beg to caution the public that all such preparations are spurious, and that no person has any right or authority to prepare LEEMING'S ESSENCE except BARCLAY & SONS, who have purchased the original Recipe, and whose name appears on the label.

Memoranda.

MR. AND MRS. WINGS reading the daily paper. "Peculiar ways the Japanese have," said Mrs. Wings; "they read up instead of down, and from right to left. What do they do that for, Mr. Wings?" "How the Con ucus should I know, Mrs. Wings? What questions you women do ask!" Then there was silence, until suddenly Wings threw down the paper with a strong remark, and poked the fire viciously. "What

is the matter Mr. Wings?" asked his wife. "Matter? Oh, nothing! I only read a half-column of thrilling narrative before I found that it wound up with a medicine advertisement." Again there was silence. Then Mrs. Wings, after pondering something deeply, said: "I know now why the Japanese read up instead of down," "Oh, you do, eh? Well, why?" "So as to see the advertisement before reading the article."

HALL'S (REGISTERED)
LUNG RESTORER
FOR CONSUMPTION

Mrs. MARSHALL, 12, MILTON TERRACE, HALIFAX, writes:—"I have been for some time troubled with Bronchitis and a hacking Cough every morning: seeing your Medicine advertised, I determined to give it a trial, and although I have only taken two bottles of your 'LUNG RESTORER' (with the Pills accompanying) my cough has entirely disappeared.

IT IS A TRIUMPH OF PHARMACEUTICAL SKILL.

Soothing all Irritation, allaying the pain occasioned by Coughing, and inducing Refreshing Sleep.
HAS STOOD THE TEST OF TIME.

A WONDERFUL MEDICINE!

Patent Medicine Dealers everywhere, in Boxes, 9 $\frac{1}{2}$ d., 1/1 $\frac{1}{2}$, and 2/9 each.

WINDSOR LOCK.

HEALTH NOTES.

FOR COLD FEET.—Those who suffer from cold feet at bedtime, should adopt the plan of plunging them into *cold* water, and then rub them dry with a rough towel till re-action occurs, when the application of *hot bottles* will be serviceable; but without the previous use of the cold application, the hot bottles often fail to excite any warmth.

HEALTHY CHILDREN.—The great thing to have healthy children is to keep them clean and warm; give them plenty of air and exercise; few sweetmeats; sufficient, but not overmuch, plain food, and attention to the bowels. If these hints are acted upon, the visits of the medical attendant will be much curtailed in number, and the health of the children secured.

EDUCATION AND HEALTH.—Many children are ruined in health, bodily and mental, by the hot-bed system of education now in vogue. It is better that children should be *dunces* than that they should have their bodily vigour lost, and their mental energy in after life endangered. Until the age of seven years they should be allowed to remain as free as the air in the green fields and pleasant woods.

HOW TO INSURE DIGESTION.—*Our food must be done*, either by the cook, or by our stomach, before digestion can take place. Surely no man in his senses would willingly be so wanting in consideration of the comfort of his stomach, as to give it the needless trouble of *cooking* and *digesting* also, and waste its valuable energies in work which a spit or a stewpan can do better. Thoroughly dressed beef or mutton is incomparably the most animating food we can furnish our stomachs with, and sound *home-brewed beer* the most invigorating drink. It is a well ascertained fact, that nothing will give less trouble to the digestive organs, and more substantial excitement to the constitution, than beef or mutton when kept till properly tender.

DREDGE'S

HEAL-ALL

WILL CURE
MUSCULAR RHEUMATISM,
SPRAINS, QUINSEY,
CHILBLAINS, &c.

DREDGE'S HEAL-ALL

Is a soft liniment, pleasant in form, velvety and creamy without being greasy, pungent without being biting, and is rapidly absorbed into the skin. On application it immediately imparts a grateful warmth to the part affected, subdues the fever which invariably accompanies pain, and gradually *draws* out the gnawing ache peculiar to all rheumatic and sciatic complaints. Indeed, the very sight of old DREDGE, in conjunction with a piece of *new* flannel, produces an irresistible lulling, drowsy sense of anticipatory warmth and comfort.

Read also what the late Mr. CHARLES DICKENS had to say about old DREDGE. Many years ago, in an early number of "Household Words," he wrote of the Matron of Gable College: "She believed greatly in DREDGE'S HEAL-ALL, and so did those boys who were most given to breaking their shins and elbows."

Memoranda.

NOT MUCH OF A RECEPTION.—A Texas merchant sent his clerk for the twentieth time to the residence of a prominent citizen to collect a bill. "Did you get anything?" asked the merchant, on the return of the clerk. "Nothing at all. They told me to come into the reception room, as usual, but I didn't receive anything."

LORD BROUGHAM once facetiously defined a lawyer as "a learned gentleman who rescues

your estate from your enemies and keeps it for himself."

FARMER (on a visit) to Cockney: "So you keep hens. I suppose you find them very remunerative." COCKNEY: "Well, I might make some money out of them if they weren't so beastly mean. When eggs are cheap they do nothing but lay for all they are worth, and when eggs go up in price they quit laying."

HALL'S (REGISTERED)
LUNG RESTORER
FOR WHOOPING COUGH

THOUSANDS OF TESTIMONIALS RECEIVED.

A considerable saving is effected by taking the larger size. The 2s. 9d. contains Three of the 1s. 1½d. size. Should there be any difficulty in obtaining, it will be sent, carriage paid, to any part of the Kingdom, securely packed on receipt of 14 or 33 stamps, from THOMAS HALL, 24, Queen Victoria Street, London, E.C.

See the Trade Mark (Figure of Hope) is on every Wrapper.

For Whooping Cough it acts like a Charm, and is so pleasant that the youngest children like it.

DOES NOT
CONTAIN
LAUDANUM
OPIUM
OR
MORPHIA.

ENO'S FRUIT SALT,

FRUIT SALINE, or FRUIT POWDER.

IT IS THE BEST PREVENTIVE OF, AND CURE FOR Biliousness, Sick Headache, Skin Eruptions, Pimples on the Face, Giddiness, Fevers, Blood Poisons, Feverishness or Feverish Colds, Mental Depression, Want of Appetite, and Constipation.

IT IS INVALUABLE to those who are Fagged, Weary, or Worn Out, or anyone whose duties require them to undergo Mental or Unnatural Excitement or Strain; it keeps the Blood pure, and prevents disastrous disease by natural means.

For Giddiness, Depression of Spirits, Sluggish Liver, Vomiting, Sourness of the Stomach, Heartburn, Costiveness and its evils, Impure Blood and Skin Eruptions, &c., **ENO'S "FRUIT SALT"** is the simplest and best remedy yet introduced. It removes, by a natural means, effete matter or poison from the blood, thereby preventing and curing Boils, Carbuncles, Fevers, Feverish Skin, Erysipelas, and all Epidemics, and counteracts any errors of EATING or DRINKING, or any sudden affliction or mental strain, and prevents Diarrhoea. It is a PLEASANT BEVERAGE, which supplies the want of ripe fruit, so essential to the animal economy, and may be taken as an invigorating and cooling draught under any circumstances, from infancy to old age, and may be continued for any length of time, and looked upon as being a simple product of fruit. It is impossible to overstate its value.

—:—O:—

HOW TO AVOID THE INJURIOUS EFFECTS OF STIMULANTS.

THE present system of living—partaking of too rich foods, as pastry, saccharine and fatty substances, alcoholic drinks, and an insufficient amount of exercise—frequently deranges the liver. I would advise all bilious people, unless they are careful to keep the liver acting freely, to exercise great care in the use of alcoholic drinks, avoid sugar, and always dilute largely with water. Experience shows that porter, mild ales, port wine, dark sherries, sweet champagne, liqueurs, and brandies, are all very apt to disagree; while light white wines, and gin or whisky largely diluted with soda water will be found the least objectionable. **ENO'S "FRUIT SALT"** is peculiarly adapted for any constitutional weakness of the liver; it possesses the power of reparation when digestion has been impaired or lost, and places the invalid on the right track to health. A world of woe is avoided by those who keep and use **ENO'S "FRUIT SALT,"** therefore no family should ever be without it.

CAUTION.—Examine each Bottle and see that the Capsule is marked ENO'S "FRUIT SALT." Without it you have been imposed on by worthless imitations. Sold by all Chemists. Prepared only at

ENO'S "FRUIT SALT" WORKS, LONDON, S.E., by J. C. ENO'S PATENT.

VIEW FROM MAIDENHEAD BRIDGE.

HEALTH NOTES.

OUT-DOOR EXERCISE.—There prevails among a good many people an erroneous idea about exercise, particularly amongst the female sex, who are often heard to remark, "My household duties give me sufficient exercise—I am sure that I am tired enough by bedtime." Now it will be seen at once, that household occupations are not exercise; for, in the first place, they are duties, generally desultory, often irksome, and often anxious; calculated to engender fatigue both of body and mind, but wholly wanting in the attributes appertaining to true exercise, namely, change of thought, change of scene, and muscular exercise accomplished in the open air. In fact, it is well known that, after being thoroughly fatigued by employments of this nature, a walk is often refreshing and agreeable. The main object to be looked for is, active movement in the open, fresh, unbreathed air.

Exercise should not be taken either immediately before or after meals. The word exercise is not applied to a gentle walk or lounge, but to motion, performed to the point of sufficiency with all the energies engaged, which brings into play the whole power of the nervous system for the time, and a certain quantity of nervous power is expended.

HOW TO PREVENT, AND HOW TO CURE A COLD.—When you come out of a very cold atmosphere—says Dr. Graham—you should not at first go into a room that has a fire in it; or, if you cannot avoid that, you should keep for a considerable time at as great a distance as possible, and, above all, refrain from taking warm or strong liquors when you are cold. This rule is founded on the same principle as the treatment of frostbites. If a frozen limb was brought near to a fire it would set up mortification; whereas, if rubbed with snow, no bad consequences follow from it. Hence, when the whole body, or part of it is chilled, bring it to its natural feeling and warmth by degrees. If this rule be observed the frequent colds we experience in winter would, in a great measure, be prevented.

Indispensable for Ladies and all Persons with a delicate skin.

If you wish to protect yourself against Chapped Hands and Cracked Skin, and to keep your Complexion in good condition during the whole year, use

MOUSON'S COCOA BUTTER SOAP

(Savon au Buerre de Cacao).

THIS Celebrated Soap consists chiefly of Cocoa Butter (extracted in the manufacture of Chocolate), which is **the mildest fat known**, and possesses a wonderfully healing and softening influence upon the skin. The beneficent and soothing properties of this product make themselves apparent by the delicious creamy lather it produces, rendering even the coarsest skin **as soft as velvet**. Cocoa Butter Soap is a real skin beautifier, and a balm to young and old alike.

Memoranda.

SASSING HIS EMPLOYER.—Sampson was clerk for one day only at the mammoth establishment of William Bobson, in Dallas, Texas. Bobson, although very wealthy, is also very illiterate. He was writing a letter, when he looked up and asked Sampson Jennings, who was at the next desk:—"How do you spell inducement—with a 'c' or an 's'?" "Damfino," responded the new clerk. "All the clerks I ever had except you knew

how to spe'l," "So did all the bosses I ever had," replied Jennings. The *entente cordiale* was spilled over the floor, and a new man stands at the desk formerly occupied by Sampson Jennings.

"MAMMA, what is an angel?" "An angel, my son! Well, an angel is a little being that flies." But, mamma, why does papa call my governess an angel? Well, my child, because she's going to fly immediately."

HALL'S (REGISTERED)
HEALTH RENEWERS
FOR ERUPTIONS OF THE SKIN

For the removal of Jaundice,
Depression of Spirits, Heart-
burn, &c.

THE BEST FAMILY MEDICINE.

Their effect is uniformly to restore the appetite, give activity to the liver, cleanse the stomach, and purify the blood. Wherever they are tried it is accepted as a foregone conclusion that to take HALL'S "HEALTH RENEWERS" is to renovate the whole system, and to lift from life the burden of pain and sickness induced by derangements and impurity of the blood.

ASK FOR "HALL'S HEALTH RENEWERS" AND DON'T HAVE ANYTHING ELSE.

VOICE TABLOIDS.

Composed of COCAINE, Chlorate of Potash and Borax.

Impart a clear and silvery tone to the voice. Easily retained in the mouth while singing or speaking. Now used by the leading singers and public speakers. DIRECTIONS.—A single Tabloid may be slowly dissolved in the mouth to remove huskiness or hoarseness. Price, 1s. and 2s. per box.

TOILET "LANOLINE."

FOR THE TOILET. In tubes at 6d. and 1s.

"Lanoline" is emollient, protective and soothing; it supplies the skin with a "cream" natural to it, and is highly regarded for abrasions, chapped hands, roughness, hardness, etc.

"LANOLINE" TOILET SOAP.

THE NATURAL SKIN SOAP. Price, 1s. per cake.

"Lanoline" is acknowledged by dermatologists to be the very best preservative of the skin, restoring its soft, pliable and elastic nature, and healthful surface.

CHLORATE OF POTASH TABLOIDS.

The most efficient remedy for sore throat. Price, 6d. and 1s. per box.

QUININE TABLOIDS.

$\frac{1}{2}$, 1, 2, 3 and 5 gr.

The best form for administration. Can be dispensed at same price as powders or pills.

PEPSIN (Fairchild).

IN SCALES AND IN TABLOIDS.

Best, purest, cheapest. Tabloids afford the most agreeable form for administering Pepsin. Tabloids, 1s. 6d. and 4s. 6d. per bottle.

PEPTONISING POWDERS (Fairchild).

One tube added to a pint of cow's milk so pre-digests it that it will no longer form a curd to irritate and inflame the infant or invalid stomach. They render cows' milk precisely like mothers' milk. "The introduction of which has probably done more than any other therapeutic measure of recent times to lessen infant mortality."—BRITISH MEDICAL JOURNAL. Price 1s. 6d. per box of 12 tubes.

KEPLER EXTRACT OF MALT.

A delicious concentrated, nutritious, digestive food for dyspeptics, invalids and infants. The LANCET says: "It is the best and most largely used." The consumptive's best resort. It is the best substitute for cod liver oil. Price, 2s. 6d. and 4s. per bottle.

KEPLER SOLUTION OF COD LIVER OIL IN MALT EXTRACT.

"Taste of the oil agreeably disguised, its nutritive powers greatly increased, and it is rendered easy of digestion."—BRITISH MEDICAL JOURNAL. Patients grow fat upon it when other forms of oil cause distress and pain. Price, 2s. 6d. and 4s. per bottle.

BURROUGHS, WELLCOME & CO., Manufacturing Chemists, Snow Hill Buildings, London. E.C.

MONMOUTH FROM THE WYE.

HEALTH NOTES.

HEALTH HINTS FOR MAY.—(1). Do not be in haste to remove your flannel underclothing: it should be worn this month. (2). See that your kitchen yard is thoroughly cleaned up, and no refuse left to decay in it to poison the air. (3). Let the cellar be thoroughly cleaned and whitewashed. (4). Be sure that the drinking water is pure. If it is suspicious, boil and filter it. (5). Prepare to diminish your winter ration of meat. Fruits, grains, and vegetables, with milk and eggs, should form our main warm-weather diet. (6). If the coat is removed while gardening, or what not, be sure and put it on *at once* when you stop working. Many a case of inflammation of lungs, or bronchitis, has occurred through delay or want of promptness in this matter.

HOW TO GET REFRESHING SLEEP.—Good, sound, perfect and refreshing sleep is marred in many ways. To obtain this the following points should be observed:—The temperature of the sleeping room should be about 55° to 60° F. The room should be equal to 12 feet square, 8 or more feet high. It must be remembered that each breath of air from the lungs vitiates the whole body of air, as a drop of ink will discolour a glass of water. If two persons sleep in the space sufficient for one, each has his system just one half washed out, one half renovated, blood one half purified. Skin exhalations also rapidly spoil the air of a sleeping room.

HOW ONE TAKES COLD.—It is generally supposed that it is the exposure to a cold or wet atmosphere which produces the effect called cold, whereas it is returning to a warm temperature after exposure, which is the real cause of the evil. It is a most erroneous practice after a cold is caught to make the room a person sits in much warmer than usual, to increase the quantity of bed-clothes, wrap up in flannel, and drink a large quantity of hot tea, gruel, or other slops, because it will invariably increase the fever. This is the old form of treatment, but experience recommends a reduced atmosphere, and frequent draughts of cold fluid as the most efficacious remedy for a recent cold, particularly when the patient's habit is full and plethoric.

A NEVER-FAILING REMEDY FOR
COLDS, INFLUENZA, &c.

BARCLAY'S
DR. BATEMAN'S PECTORAL DROPS.

This Medicine has long been held in the highest estimation for all Rheumatic and Chronic Complaints, in Pains of the Limbs, Bones, and Joints, and in violent Colds. It has been in repute now upwards of a century, and the great quantity sold annually is the best proof of its efficacy; parties who have once used it seldom failing to have recourse to it the second time, when occasion requires. It does not act as a purgative, but principally upon the pores of the skin, inducing gentle perspiration, and therefore acting in a great measure as a preventive of Fever, too often arising from neglected Colds. In Rheumatism and Chronic Pains it is invaluable. For

I N F L U E N Z A

it is unrivalled, particularly if taken in the early stages,

The following Extracts from Letters are respectfully submitted to the Public without comment, viz. :—

From Messrs. BRADBURY & Co., Printers, Bolton.

The BARCLAY'S BATEMAN'S DROPS are much used here as a remedy for the Influenza, which is very prevalent with us.

(Signed) H. BRADBURY, JUN., & CO.

BOLTON, 6th September, 1883.

GENTLEMEN,—I wish to tell you that my wife has been troubled with Chronic Rheumatism for about three years, the last two years being spent in bed, not being able to stir a single limb or get any rest during the night. I have had numbers of doctors attending her, but their medicine has failed in doing any good for her. She began to take your BATEMAN'S DROPS very soon after she was troubled with it, and has found nothing so far that has surpassed it in nulling the pain and making her sleep.

Yours respectfully,

H. LONG.

Sold in Bottles, price $1/1\frac{1}{2}$ and $2/9$ each.

"CAPTAIN, we are entirely out of ammunition," said the orderly sergeant of a company of Volunteers to his Irish captain at a late review. "Antirely out?" said the captain. "Yes, entirely out," answered the sergeant. "Then sase firing," said the captain.

TOO STRICT.—In Germany the police regulations are very strict, and any violation of them is promptly punished. The people have a holy

terror of the law. Two gentlemen happened to meet in Berlin, and the following conversation took place:—"Have you heard the dreadful news about Miller?" "No, what is it?" "He was in a boat in the river. He fell overboard and was drowned. The water was too deep." "Didn't he know how to swim?" "Swim! Don't you know that all persons are forbidden by the police to swim in the river."

HEALTH NOTES.

Rest.—The mind is best rested by diversion to a different subject of thought, or by muscular activities; the most complete rest is that which sleep gives; after great mental excitement, sleep is often impossible; but if there is diversion in muscular occupation for a while, refreshing sleep will follow. If from any cause a man feels himself exhausted mentally or muscularly, a cup of hot black tea affords an instantaneous and most delightful relief. If very tired, physically, lie on the back, knees drawn up, the hands clasped above the head, or resting on the elbows, the fore-arm at right angles, and the hands hanging over the bends of the wrists. Some persons are best rested by lying on the face for a while. Sometimes persons become tired and restless in bed, being waked up, and cannot get to sleep again. Rest and sleep may often be had by getting up and using a towel bath thus: take a towel, dip a corner of it in water, cold or warm, as is most agreeable, lay the dampened part flat on the hand, and with mouth shut and breast protruding rub the whole surface of the body, fast and hard, as far as can be reached in every direction, and then go to bed again; the feeling of refreshment and vigour from the operation, properly performed, is sometimes most agreeable, to be followed by quick and delicious sleep, provided the mind is not bent on disagreeable topics.

Mental Recreation.—Mental diversion, mental exhilaration, mental release from the cares and business and worries of life, are not only essential to healthful thought, to a healthy condition of the mind, but they materially promote bodily vigour and physical well-being. Amusements should more largely enter into our family life than they now do; it is the absence of it to too great an extent, which leads to many social evils, to many habits and practices which ruin the health and morals of our sons and daughters in a great many cases. Young people cannot be expected to have books and newspapers always in their hands, or sit demurely by the family fireside by the hour, in hemming and stitching and knitting. Games and pastimes should be more freely introduced into families; there should be more of off hand visiting; of informal call; where one neighbour can drop into another neighbour's house after dark, and spend an hour or two in unrestrained social intercourse; thus giving air, exercise, and recreation.

A GEM OF A CEMENT.

MY WEDDING PRESENT.

“So whenever the Missus smashes anything, I just takes my DAVY’S DIAMOND CEMENT and splices the timbers, making them stronger than new. In fact, all our crockery has been broken over and over again, but always in fresh places.”

Davy’s Diamond Cement can be obtained at any Chemist’s; or from the Proprietors,

Memoranda.

AN officer in battle happening to bow, a cannon ball passed over his head and killed a soldier behind him. "You see," said he, "a man never loses by politeness."

A NEW CURE.—Mrs. Cribber—"What has become of all your Cleopatra jewellery—the asps, snakes, serpents and things?" Mrs. Bibber—"Hush! Don't let my husband hear you. I have hidden them away." "Haven't you worn them

at all?" "I wore them once, and the moment my husband saw them he rushed off to a doctor. The next morning he took the pledge. I shan't wear them again unless he backslides."—*New York Weekly*.

A SAILOR put a saddle on hind part before. A bystander showed him his error. The sailor exclaimed: "How do you know which way I am going to ride?"

HALL'S (REGISTERED)
HEALTH RENEWERS
FOR DYSPEPSIA

TO YOUNG PERSONS—HALL'S
"HEALTH RENEWERS" are the best medicine that can be given, being SUGAR-COATED are pleasant to take, and readily taken by the youngest.

Sold by Chemists and Medicine Vendors everywhere, in Boxes, at 1s. 1½d. and 2s. 9d.; or post free for 14 or 33 stamps from THOMAS HALL, 24, Queen Victoria Street, London, E.C.

While a specific for every stomach disorder, they are in every sense essentially **THE BEST FAMILY MEDICINE**, not only because they are the safest, but the most effectual. Being small and SUGAR-COATED, no difficulty will be found in administering them even to the youngest.

The Finest Nervine Tonic ever discovered for
Tic, Tooth-Ache, and Neuralgic Pains.

Sweeting's Tooth-Ache Elixir

A Safe and Infallible Cure for
Tooth-Ache, Tic-Doloreux, Neuralgic Pains
in the Head, Face, &c.

THIS excellent Preparation, instead of aiming at giving temporary relief, attacks the root of the disorder, viz., the stomach, a disordered state of which is almost invariably the cause of Toothache, Tic-Doloreux, Neuralgia, and other painful affections of the Teeth and Gums. Possessing highly tonic and carminative properties—the latter giving a healthy warmth, and the former tone and vigour, to the nervous system—it gives almost instantaneous relief, and rarely, if ever, fails in producing a certain and permanent cure.

SWEETING'S TOOTH-ACHE ELIXIR

Is the most certain remedy for TOOTH-ACHE.

SWEETING'S TOOTH-ACHE ELIXIR

Is the most certain remedy for FACE-ACHE.

SWEETING'S TOOTH-ACHE ELIXIR

 I feel I do not exaggerate in stating that over 100,000 persons have been cured of Tooth-Ache or Tic in the Counties of York and Lincoln alone during the past three years.

SWEETING'S TOOTH-ACHE ELIXIR

Has been established over 40 years.

Sold in Bottles, 1s. 1½d. and 2s. 9d. each, by all Medicine Vendors throughout the United Kingdom.

SOLE PROPRIETORS—

BARCLAY & SONS (Ltd.), LONDON.

THE WYE BRIDGE AT CHEPSTOW.

HEALTH NOTES.

Cleanliness.—The effect of cleanliness on the health is marvellous. Many diseases originate from inattention to it, and simply require for their treatment that the filth should be removed. Yet how many people trust to “bottles,” “lotions,” “salves,” “*healing saw*,” or “ointment,” to heal a superficial sore, for example, which might after all be cured by cleanliness alone; and it is to be feared that such applications have not only been ineffectual, but frequently have increased the former mischief. Many do not think it necessary to attend to this and nurses are among the number. Cleanliness, though it will not of itself heal every sore, will at all events greatly aid, while, on the other hand, slovenly habits must retard the recovery, and entail more misery and suffering. The face, but particularly the hands, should be sponged with warm water several times in the course of the day, if they are hot or if there is a tendency to feverishness; or this may be alternated by allowing a small piece of ice to dissolve in the hands, or rubbed over them and the face, and immediately dried afterwards.

Cautions in Visiting the Sick.—Do not visit the sick when you are fatigued, or when in a state of perspiration, or with the stomach empty—for in such conditions you are liable to take the infection. When the disease is very contagious, place yourself at the side of the patient which is nearest to the window. Do not enter the room the first thing in the morning, before it has been aired; and when you come away, take some food, change your clothing immediately and expose the latter to the air for some days. Tobacco smoke is a preventive of malaria.

Ringworm.—This is caused by a vegetable parasitic growth within and around the hair in patches. The head should be washed freely with Calvert’s carbolic soap, the hair carefully combed to remove all loosened hair and every particle of crust, then apply the following lotion, which is very poisonous, and should be carefully locked when not being used:—Sublimate of mercury, $2\frac{1}{2}$ grains; spirit of wine, 1 ounce; tincture of musk, 1 dram; water, 3 ounces. It must be applied with friction with the finger when well wetted with the lotion, or it will not reach the real seat of the disease. The fingers, comb, sponge, and towel must be thoroughly disinfected with carbolic acid each time after use.

THE NATURAL MINERAL WATERS OF

(STATE

VICHY

SPRINGS.)

"CELESTINS," for Affections of the Kidneys, Gravel, Gout, Rheumatism, Diabetes, &c.

"GRANDE-GRILLE," for Affections of the Liver and Biliary Organs, &c.

GEORGE'S POWDERS and BALSAM are sold everywhere.

Manufactory—PENTRE, RHONDDA VALLEY, GLAMORGANSHIRE.

DR. J. COLLIS BROWNE'S

ONLY GENUINE.

ORIGINAL AND

Chlorodyne

IS THE GREAT
SPECIFIC FOR CHOLERA,

**COUGHS,
COLDS,
ASTHMA,
BRONCHITIS.**

DR. J. COLLIS BROWNE'S CHLORODYNE.—Dr. J. C. BROWNE (late Army Medical Staff) DISCOVERED a REMEDY to denote which he coined the word CHLORODYNE. Dr. Browne is the SOLE INVENTOR, and, as the composition of Chlorodyne cannot possibly be discovered by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr. Browne's Chlorodyne must be false.

This Caution is necessary, as many persons deceive purchasers by false representations.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Vice Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was UNDOUBTEDLY THE INVENTOR OF CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 13th, 1864.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell St., W.C.

DIARRHŒA, DYSENTERY.
GENERAL BOARD OF HEALTH, London, REPORT THAT IT ACTS AS A CHARM, one dose generally sufficient. Dr. GIBBON, Army Medical Staff, Calcutta, states: "TWO DOSES COMPLETELY CURED ME OF DIARRHŒA."

DR. J. COLLIS BROWNE'S CHLORODYNE is the TRUE PALLIATIVE in NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.

DR. J. COLLIS BROWNE'S CHLORODYNE is a liquid medicine which assuages PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, AND INVIGORATES THE NERVOUS SYSTEM when exhausted.

DR. J. COLLIS BROWNE'S CHLORODYNE rapidly cuts short all attacks of EPILEPSY, SPASMS, COLIC, PALPITATION, HYSTERIA.

IMPORTANT CAUTION.—The IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITATIONS. Be careful to observe Trade Mark. Of all Chemists, 1/1½, 2/9, and 4/6.

DREDGE'S HEAL-ALL CURES GOUT.

Memoranda.

IN the middle of one of the Rev. Rowland Hill's sermons he was disturbed by a commotion in the gallery. He exclaimed: "What's the matter there; the devil seems to have got among you?" A countryman replied: "It arn't the devil as is doing it, its a lady wot's fainted." Hill rejoined: "I beg the lady's pardon, and the devil's too."

A FINANCIAL MANAGER.—Mrs. Peterby is a woman with a head for business. "Just see here.

I have bought a beautiful rocking chair at auction worth 3 dollars, and I only paid 2 dollars for it; so you see I have one dollar clear profit. Don't tell me after this that women have no business sense." "Do you need that rocking chair?" asked Mr. Peterby. "No." "Then what did you buy it for?" "To save moneey, of course. How could I have saved that dollar if I hadn't bought it, stupid?"

ALDERBALDER. THE PINK OF PERFECTION!

REGISTERED TRADE MARK.

THE ONLY LIQUID FURNITURE POLISH THAT CLEANS AND POLISHES IN ONE OPERATION.

WHEN ONCE TRIED, ALL OTHERS WILL BE DISCARDED.

IT IS AS LIMPID AS WATER.

THE HOUSEKEEPER'S PRIDE! THE HOUSEMAID'S FRIEND!

All others are thick and sticky, so that when put into carved work they are with **very great** difficulty, **if ever**, got out again, consequently dust and dirt adhere and furniture is thus spoiled.

It will not injure varnish. It is absolutely clean and leaves nothing for dust to stick to. It is Liquid. Try it on the most hopelessly dirty looking varnished furniture, and the result will be amazing.

ALDERBALDER is unsurpassed as a **cleaner** as well as reviver for carved and polished furniture of all kinds, Varnished Paint, Wainscoting, Old Oak Panelling, Oil Paintings, Japanese Work, Tunbridge Ware Table Mats, Lacquer, Papier Maché, Patent Leather and Harness, Backs of Toilet Brushes and Hand Glasses. **Sold in 6d. & 1/- Bottles.** Wholesale by Messrs. BARCLAY & SONS, Limited, 95, Farringdon Street, London, E.C., and THE ALDERBALDER CO., Exeter.
Retail of all Chemists, Grocers, and other Stores.

MOTHERS READ THIS!!

Your children are often tiresome, fretful, peevish, and irritable. Why? Sometimes it is their teeth, sometimes their stomach that is out of order, but oftener than all, it is because of some irritation of the skin from chafing or other causes. You use ordinary Fuller's Earth or Violet Powder. It is no better. Why? because you use perhaps some coarse brown earth, or mixed powder, which only adds to the irritation. You should **always** use

BALFOUR'S ROSE WHITE FULLER'S EARTH,

The cooling and healing effect of which is marvellous, it is perfectly pure and harmless to the most delicate skin. Doctors recommend it to all who suffer from skin irritations or chafings. Sore, tender, or perspiring feet are relieved at once if a little is dusted into the socks or stockings every morning. Ask your Chemist for it, if he does not keep it, he will get it for you from the Wholesale Agents—

Messrs. BARCLAY & SONS, Limited, 95, Farringdon Street, London, E.C.

Persevere until you get it, and you will be glad you have done so. It is Sold in 1d. and 3d. Boxes, and 6d. and 1/- Tins.

NURSERY NOTES.

Thrush is an inflamed rash of small white blisters inside the mouth and on the tongue.

Hooping Cough.—Change of air to the sea-side, or taking the little sufferers into gas works, or factories where they can inhale the fumes of tar and pitch, is often more efficacious in curing this disease than medicine.

Teething.—These troubles commence about the fifth or seventh month, and continue up to two years with cutting the first or milk-teeth, and is attended with more or less Constitutional derangement. The second or permanent teeth commence about the fifth year, and continue over the seventh. During the early teething a Stedman's powder may always be given with benefit.

Convulsions in Teething.—In cases of convulsions, the face and head of the child should be promptly bathed with cold water, and the entire body placed in a hot bath. At the same time, if the gums are very much swollen and very red, they should be lanced, and the feverishness and irritability should be allayed by gently rubbing with Mrs. Johnson's Soothing Syrup.

How Children should be Fed.—Milk alone during the first nine months of a child's existence, in quantity from two to three pints, diluted, should be given daily if brought up by hand; and from that time till about 20 months farinaceous food may be mixed with the milk in gradually increasing quantities. Milk puddings made with a little egg, and by degrees bread and butter should lead on to the third year. From this to the fifth year well-boiled potatoes, with a little meat gravy, and eventually meat itself should be added to the infant's food. At about the ninth year the child may partake of the general food and meals of the family; but still, during all this time, milk must be the staple food. The infant has not only to supply waste, but to bring increase of size and stature. To produce this, a greater amount and more frequent consumption of food is necessary. For its weight, an infant requires three times as much carbonaceous, and six times as much nitrogenous food as an adult.

Measles at first resemble a severe cold—sneezing, watery eyes, discharge from nose, cough, fever, diarrhœa, and sickness. The eruption of round red spots first show on face about fourth day, and if kept warm in bed, spreads over the body, and fades away about the seventh day. Measles only require the patient to be kept warm, and give plenty of cooling drinks, barley water, &c. It is the after complications which require attention.

Worms.—The symptoms of worms are—depravity of appetite, sometimes disgust and others voracity of food, thirst, disturbed sleep, grinding of the teeth during sleep, pallid countenance, fœtid breath, itching of the nose, and emaciated limbs. They may be removed by the use of Bragg's Charcoal. Half a teaspoonful of the powder taken stirred in water, or half a biscuit given twice or thrice a day will often remove them. The charcoal purifies the stomach and bowels from all impurities upon which the parasites feed. Deprived of their food they die, and pass out of the system.

When a mustard poultice is applied to infants and young children, the mustard should be mixed with an equal quantity of linseed, and its effects watched. Blisters caused by mustard are very difficult to heal.

CRADLES should not be allowed to rest on the floor.

A **CHILD** should not be put to bed immediately after a full meal.

CHILDREN should not be in the room during either sweeping or scrubbing.

A **CHILD** should sleep in a cot or bed by itself in the room of its parents or nurse.

A **CHILD** should never be allowed to remain up late; it exhausts its nervous power, and induces habits of sleeplessness.

HORSEHAIR or flock mattresses are better for children than feather beds, and are less likely to lead to curvature of the spine.

ROCKING a child causes sleep by cerebral congestion, and is said to induce "water on the brain." Children that are accustomed to regular hours each day and night for sleep do not require such adventitious aid.

Extract from Important Unsolicited Testimonial from

G. HOTHER, ESQ., M.R.C.S., L.S.A.L.

OVER TWO THOUSAND

Have been received from Medical Men.

7, St. John's Terrace, Lewes,

Oct. 7th, 1890.

To Messrs. Coleman & Co., Ltd.

I have been attending a child two-and-a-half years old suffering from Blood Poisoning, the child was very ill and refused all kinds of nourishment. I then tried your Liebig's Extract of Meat and Malt Wine Alcoholic, ordered him one table-spoonful every two hours, which he took readily; he had nothing else except medicine for fourteen days—the child is now recovering and takes ordinary food.

Yours truly,

GEO. HOTHER, *Surgeon.*

'A GOOD NIGHT'S REST; Cough gone this morning.'

Prepared only by **A. HAYMAN & Co., LONDON, E.C.**

Sold by all Chemists and Patent Medicine Vendors, in Bottles, 1/1½, 2/9, and 4/6.

TOILET NOTES.

Wash for Sunburn.—Take two drachms of borax, one drachm of Roman alum, one drachm of camphor, half an ounce of sugar-candy, and a pound of ox gall; mix and stir well for ten minutes or so, and repeat this stirring three or four times a day for a fortnight, till it appears clear and transparent: strain through botting-paper and bottle up for use.

Hair Management.—There is a prevailing impression that you cannot brush the hair too much, or too hard. This is one among the many popular errors; too much stimulant to the scalp is not beneficial, and is often the cause of harshness of the hair and the formation of scurf. The skin of the head is kept moist by a natural oily secretion, and it is the deficiency of this secretion that causes the hair to become dry, coarse, and scurfy. Too frequent washing the head with soap and water, or strong alkaline solution, removes this natural exudation—deprives the hair of its nourishment. Washing the hair with egg lotion and brushing gently, some vaseline pomade, or bland wash containing glycerine, is by far the better treatment.

Cleansing the Hair.—A good wash is made with 2 ounces of borax dissolved in 2 quarts of water, and add in small lumps 1 ounce of camphor. Let stand two or three days, shaking the mixture two or three times a day; then use the clear liquid. The camphor, which is not dissolved, should be used again till entirely dissolved. An excellent tonic hair dressing is prepared by boiling 1 ounce each of rosemary and box (just as it is picked, wood and leaves together) in a pint of cold water. Let it simmer gently for two hours, then strain; when cold, add 2 ounces of bay rum and 2 ounces of glycerine. Use with a soft brush every morning.

Freckles or Stains on the Skin.—When the superficial luminæ of the scarf-skin become stained from not using sufficient soap, or from too much exposure to the sun's rays, and the skin has the appearance of being mottled, with irregular brown or olive coloured spots, the best remedy will be found in lemon juice. This is an agent of great utility in removing stains from the skin, after the dirt has been completely washed away with soap.

To Clean Brushes.—A teaspoonful of ammonia, added to one quart of water, is the best possible agent for cleansing hair brushes.

Liquid for Prevention of Baldness.—Eau de Cologne, 2 ounces; tincture of cantharides, 2 drachms; oil of rosemary, oil of nutmeg, and oil of lavender, each 10 drops. To be rubbed on the bald part of the head every night.

Chapped Hands are usually caused by the use of hard water. To prevent this affection, they should be thoroughly dried after washing. A little glycerine or oil, by softening the hardened and contracted skin, will prevent chapped hands.

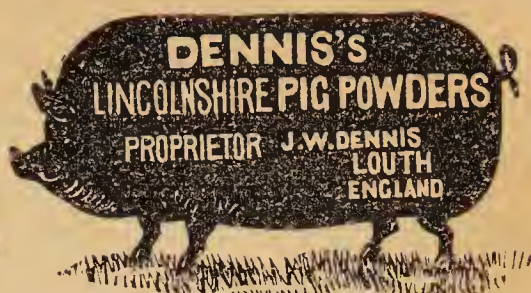

Eyelashes.—To increase the length and strength of the eyelashes, simply clip the ends with a pair of scissors about once a month. In Eastern countries mothers perform the operation on their children, both male and female, when they are mere infants, watching the opportunity whilst they sleep.

The Teeth.—These should be well cleaned with a soft brush every morning before breakfast. After dinner or other meal they may have the brush passed lightly round them for a few seconds. A few drops of eau de Cologne, in a tumbler of water, makes an agreeable tooth wash.

Chilblains.—Keep the feet dry and warm; if co'd, do not warm them at the fire, or place them in hot water, but lave them with cold water, and then rub with dry cold towels. Warm fomentations, and subsequent rubbings with liniments of turpentine or camphorated spirit, or "Dredge's Heal-all." If there be a discharge of matter apply bread poultices, and when it ceases use creosote ointment.

Offensive Feet.—The feet should be washed daily in cold water, and afterwards rubbed thoroughly dry; the water may contain half an ounce of powdered alum to the quart. Also at least once a day, especially after exercise, bathe the feet with a solution of 80 grains of permanganate of potash to one pint of water. Also before putting on the socks or stockings the feet should be thickly powdered, especially between the toes, with a powder made from the following, viz., one part each chlorinated lime, prepared chalk, and starch powder.

DENNIS'S "LINCOLNSHIRE" PIG POWDERS

SPEEDILY ARREST DISEASE AND SAVE LIFE, and are acknowledged the best remedy for Swine Fever, Colds, Retention of Urine, Tender Feet, Loss of Appetite, Inflammation, Costiveness, Milk Fever, Coughs, Fits, Hoose, &c., &c. They are a Medicine and a condiment in one.

Registered Trade Mark No. 14,839.

CAUTION.—The immense success of these Powders throughout England has called forth numerous imitations, most of which are perfectly useless as a medicine, being only a low-priced condiment, worthless in disease. These Powders, on the contrary, maintain their superiority over all others, and give entire satisfaction to all using them. In fact they are the only MEDICINE which cures all DISEASES to which PIGS are subject.

Sold everywhere in Packets, with full directions on each—Six Powders for 5d., Twelve for 10d.

Chemists and others not having them in stock will rapidly procure them, or the Proprietor will send free, a Box containing 1 Gross of Powders for 10/-; $\frac{1}{2}$ Gross for 5/-; $\frac{1}{4}$ Gross for 2/9; 1 Dozen for 1/- P.O.O. or Stamps.

TRADE
MARK.

Registered
No. 27972.

A HIGHLY CONCENTRATED VEGETABLE BUTTER COLOURING.

"CARROTINE" mixes freely only with the Butter or the fatty portion of the Cream; leaving the Buttermilk or Watery part only slightly tinged. "Carrotine" imparts to the Butter a beautifully bright and much desired colour, without in any way injuring its fresh and natural flavour.

Thousands have proved the utility of "Carrotine" and recommend its use. "Carrotine" entirely does away with the trouble and annoyance of grating carrots, and is infinitely superior to all preparations of annatto. Being in a liquid form, all that is required is to add the requisite quantity of "Carrotine" to the Cream in the churn.

Sold in Bottles, at 6d., 1s., and 2/- each. Post Free, 8d., 1/3 and 2/3.

Most Chemists keep it in stock, but any will procure it for you.

Memoranda.

A man is always a fool. If he be young, the world says, "When he is older he will know more." If he be older, it says, "He is old enough to know better." And when he is old, it says, "There is no kind of fool equal to an old fool."

"MONEY does everything for a man," said an old gentleman, pompously. "Yes," replied the other, "but money won't do so much for a man as some men will do for money."

In Hungary a man convicted of bigamy was compelled to live with both wives in the same house. Hence bigamy was rare in that country.

SOMEBODY tried to excuse a liar to Dr. Johnson, saying, "You must not believe more than half what he says." "Aye," replied the doctor; "but which half?"

AN old miser blew out a candle when he was dying, saying: "I can see to die in the dark."

HALL'S (REGISTERED)
LUNG RESTORER
FOR COUGHS

Mr. J. GOW, 17, NEW BROAD STREET, LONDON, E.C., writes:—"To Proprietor of HALL'S 'LUNG RESTORER.' Please send me at once three 2/9 bottles of your valuable preparation for coughs. Having used it with great benefit to myself and family, I am pleased to speak of its marvellous effects, and do not intend to be without it in future."

In Bottles, 1s. 1½d. and 2s. 9d. of all Chemists. If any difficulty in obtaining, it will be sent on receipt of 14 or 33 stamps direct from THOMAS HALL, 24, Queen Victoria Street, London, E.C.

H.M. Queen Victoria when in Grasse pronounced the perfumes of M. Giraud to be "exquisite."

ACCIDENTS AND POISONS.

When an accident happens, remember that a little efficient aid may assist in saving the injured person's life.

One nurse, relative, or friend should take the entire charge of cases of accident, and carry out, regularly and strictly, the doctor's instructions as to diet, medicine, and other treatment.

When a burn is extensive or serious, send at once for medical aid; and should the person remain faint, give a teaspoonful of any stimulant occasionally.

Lay anyone injured on his or her back, or if the breathing is affected, in a partially sitting position, taking care to support properly the back and head. Loosen any of the clothes which are tight or causing discomfort.

When a person breaks his leg, and *splints* cannot be had directly, get bunches of straw or twigs, roll them up in handkerchiefs, and placing one on each side of the leg or arm, bind another handkerchief firmly around them; or make a long bag three inches in diameter, or even more, of coarse linen duck, or carpet, and stuff this full of bran, sawdust or sand, sew up the end, and use this the same as the twigs. It forms an excellent extemporaneous splint. Another good plan is to get a hat-box made of chip, and cut it into suitable length; or for want of all these, take some bones out a pair of stays, and run them through a stout piece of rug, protecting the leg with a fold of rug, linen, &c. A still better splint, or set of splints, can be extemporised by cutting a sheet of thick pasteboard into proper sized slips, then passing each piece through a basin of hot water to soften it. It is then applied to the fractured limb like an ordinary splint, when it hardens as it dries, taking the exact shape of the part to which it is applied.

If there be any doubt about a dislocation, surgical advice ought to be procured as quickly as possible, as a dislocation should be reduced at once.

If a vein has been cut, the blood, which is of a dark-purple colour, oozes in an even stream, and is easily stopped by pressure just *below* the wound and by a pad upon it.

Send at once for medical aid in cases of poisoning, and, if the patient is insensible, dash cold water upon the body, and rub the surface with the hand.

In the case of sting of bees and wasps, the seat of injury should be carefully searched for the sting, which is generally left in, while the wound should be treated with sal-volatile, vinegar, or eau de Cologne.

When a person is in good health, and is suddenly attacked, after having taken some food or drink, with violent pain, cramp in the stomach, feeling of sickness, or nausea, vomiting, convulsive twitchings, and a sense of suffocation; or if he be seized, under the same circumstances, with giddiness, delirium, or unusual sleepiness, then it may be supposed that he has been poisoned.

Save all fluids vomited, and articles of food, cups, glasses, &c. used by the patient before being taken ill, and lock them up. Examine the cups to guide you in your treatment; that is, smell them, and look at them. As a rule give emetics after poisons that cause sleepiness and raving:—chalk, milk, eggs, butter, and warm water, or oil, after poisons that cause vomiting and pain in the stomach and bowels, with purging; and when there is no inflammation about the throat, tickle it with a feather to excite vomiting.

STRONG ACIDS.—If these have been swallowed, give chalk, ammonia, carbonate of magnesia, plaster scraped from the walls or ceiling, or any alkali stirred up in water.

CAUSTIC ALKALIES.—Give vinegar, *ad lib.*

CARBOLIC ACID.—Give oil, *ad lib.*

Antimony, zinc, tin, silver, phosphorus, and all other poisons, except those mentioned above—emetics of salt and water or mustard and water. The back of the throat may be tickled with a feather to provoke vomiting.

If any preparation of opium has been swallowed in a poisonous dose, in addition to emetics, electricity, the application of ammonia to the nostrils, strong coffee and tea, and walking the patient about are the most ready remedies. If oxalic acid has been taken, in addition to emetics any preparation of lime may be given, but not soda or potash.

HIMROD'S CURE FOR ASTHMA,

Catarrh, Hay Fever, Diphtheria, Croup, and
Common Colds.

Established nearly a Quarter of a Century.

Prescribed by the Medical Faculty throughout the world. It is used as an inhalation,
and without any after bad effects.

Among the thousands of Testimonials the following will be read with interest:—

"The only relief I could get." "If I had known it earlier."

LORD BEACONSFIELD

(In his dying moments).

"I have tried every remedy ever invented, and HIMROD'S CURE is the
only one in which I have absolute confidence."

EMILY FAITHFULL.

"This is an excellent remedy for Asthma."

SIR MORELL MACKENZIE

(In his Clinical Lecture at the London Hospital
and Medical College).

"I have used all remedies—HIMROD'S CURE is the best. It never failed."

Memoranda.

EDITH asks—"Will you please send me a receipt for a nice home-made pie?" Yes, Edith, we will send the receipt in the very first mail after we receive the pie.—*American Paper.*

"CAN you draw a dog?" said a lady to a gentleman caller. The youth blushed crimson, and said it depended upon two things—the size of the dog, and the strength of the material of his pants.

"DEAR George," said a young wife, tenderly, as she stroked her husband's Irving bangs; "shall I sing 'Some Day?'" "Yes, dear," replied the heartless wretch; "some day when I'm away from home."

SOME people have much quicker perceptions than others, but most any ordinary person can tell what evenings a girl expects her beau by the way she fixes her hair.

HALL'S (REGISTERED) LUNG RESTORER FOR HOARSENESS

LILLY NAYLOR, ODD FELLOWS' ARMS, WEST HILL, DARTFORD, writes:—"Taking cold three years ago, I have since suffered from a bad Cough. I took HALL'S 'LUNG RESTORER,' and it relieved me at once."

Country Wholesale Agents—EVANS, Liverpool; FOGGITT, Thirsk; GOODALL, Leeds; THOMPSON, Liverpool; WOOLLEY, Manchester; and WYLEYS, Coventry.

IN CASES OF ASTHMA THE RELIEF IS IMMEDIATE.

Possesses the power to Soothe, Relieve, and Heal, which exists in no other Preparation.

ITS EFFECTS ARE INSTANTANEOUS.

READ THIS FACT!

94, Commercial Road, Peckham, July 12th, 1889.

"Dear Sir,—I am a poor hand at expressing my feelings on paper, but I should like to thank you, for your lozenges have done wonders for me in relieving my terrible cough. Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany; and unlike him, thank God, I am still alive and getting on well) performed at St. Bartholomew's Hospital for abduct, or paralysis of the vocal chords, no one could possibly have had a more violent cough; indeed it was so bad at times that it quite exhausted me. The mucus also, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty."

Mr. T. KEATING.

I am, sir, yours truly,

J. HILL.

MEDICAL NOTE.

The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lozenges is understated. The operation was a specially severe one, and was performed by the specialist, Dr. H. T. Butlin, of St. Bartholomew's Hospital. Since the operation, the only means of relief is the use of these Lozenges. So successful are they that one affords immediate benefit, although from the nature of the case the throat irritation is intense. Mr. Hill kindly allows any reference to be made to him.

THE UTTERLY UNRIVALLED REMEDY FOR COUGHS, HOARSENESS AND THROAT TROUBLES.

"Keating's Cough Lozenges" are sold everywhere, in Tins, 1/1½ and 2/9 each. Free by Post, 15 Stamps.

THOS. KEATING, CHEMIST, LONDON.

℥	Scruple	24
ʒ	Dram	3	60
℥	Ounce	8	24	480
lb.	Pound	12	96	288	5,760

Used in compounding Medicines. The Ounce and Pound are the same as in Troy Weight. A Grain is the same in all weights.

In FLUID MEASURE, a minim (m) is a drop, a dram (ʒ) is 60 minims, an ounce (℥) is 8 drams, a pint is 20 ounces.

A teaspoonful is 1 dram, a dessertspoonful is 2 drams, a tablespoonful is 4 drams.

ANGULAR MEASURE.

OR DIVISIONS OF THE CIRCLE.

	Degrees.	Minutes.	Seconds.
Minute	60
Degree	60	3,600
Quadrant (or Right Angl-)	90	5,400	324,000
Circumference	360	21,600	1,296,000

A Sign is 30 Degrees.
Arc, same length as radius.... { = 57° .2957795 Circumference of Circle = Diameter × 3.1416
 = 3,437'.74,677 Diameter of " = Circumfer. × .31831
 = 206,264".806 Area of " = Sq. of Diam. × .7854

TIME MEASURE.

	Days.	Hours.	Minutes.	Seconds.
Minute	60
Hour	60	3,900
Day	24	1,440	86,400
Week	7	168	10,080	604,800

A Lunar Month is 28 days; a Calendar Month 28, 29, 30, or 31 days.

A common Year is 52 weeks 1 day, or 365 days. Every year divisible by 4, without a remainder, is a leap year, and contains 366 days, except the last year of a century not divisible by 400.

MISCELLANEOUS ARTICLES.

Aum of Hock	about 30 gals.	Pocket of Hops	1½ to 2 cwt.
Barrel of Tar	26½ gals.	Puncheon of Brandy	100 to 115 gals.
Box of Raisins	56 lbs.	" " Rum	90 to 100 gals.
Cask of Rice	7 to 8 cwt.	" " Whisky	about 120 gals.
Chest of Congou Tea	about 80 to 100 lbs.	Quire of Paper	24 sheets
Chest of Hyson	60 to 80 lbs.	Ream of "	480 sheets or 20 quires
Firkin of Butter	56 lbs.	Roll of Parchment	60 skins
Firkin of Soap	64 lbs.	Sack of Coals	224 lbs.
Fodder of Lead	19½ cwt.	Sack of Flour	280 lbs.
Gross	144 or 12 dozen	Sack of Potatoes	168 lbs.
Hogshead of French Wine	43 to 46 gals.	Truss of Old Hay	56 lbs.
Load of Hay or Straw	36 trusses	" New Hay	60 lbs.
Load of Bricks	500	" Straw	36 lbs.
Pipe of Madeira	92 gals.		

A Butt of Sherry contains 108 gallons, or about 52 dozens.

A Pipe of Port " 115 " " 56 "

A Hogshead is one-half, a Quarter Cask one-fourth, an Octave one-eighth of a Pipe, Butt. or Puncheon.

SWEETING'S ELIXIR IS A SWORN FOE TO TOOTHACHE.

Memoranda.

A LITTLE GIRL joyfully assured her mother the other day that she had found out where they made horses—she had seen a man finishing one. "He was na ling on his last foot, she said."

"Who was Peter?" asked a Texas Sunday-school teacher. "Peter was a brick." "Why, Johnny, I am surprised at you!" "It says so in the Bible, anyhow. I read it the other day. It says: 'Thou art Peter, and upon this brick I'll

build my church.'" "Rock, Johnny, rock; not brick." "Well, I knew it was some kind of building material."

It is the young lady with the brand new seal-skin who is ever remarking, "How awfully cold it is," while her less fortunate sister, with nothing but a summer jacket is "just suffering from the heat," though the thermometer be twenty degrees below zero.

HALL'S (REGISTERED)
LUNG RESTORER
FOR CONSUMPTION

To Mr. T. HALL.

DEAR SIR,—Your "LUNG RESTORER" has done me an immense amount of good in a very serious Bronchial attack, and I am desirous of telling you this. It is the best and most honest remedy I have ever tried, and those who suffer from Coughs, Colds, Asthma, and Bronchitis, will be grateful to you for the relief your medicine must bring them. There is so much humbug about patent remedies, that it is a relief to find one which does what it professes to do.

Author of "The Road," "The Rose of Wharfedale," "The Sting of the Adder," &c., &c.

It Soothes all Irritation, Allays Pain occasioned by Coughing, and induces sleep, exquisite and refreshing.

IT NEVER FAILS TO GIVE INSTANT RELIEF.

OTLEY,

LITHOLYDIUM ZACHARIAE,

FOR

GOUT,
CHRONIC
RHEUMATISM,

STONE,
GRAVEL,

AND

GENERAL DISEASES OF THE KIDNEYS AND BLADDER.

LITHOLYDIUM ZACHARIAE, OR STONE SOLVENT,

Is the only remedy extant prepared according to known laws of physiology, which effects a radical cure in cases of Stone, Gravel, Lumbago, Chronic Rheumatism, Gout, Chalky Gout, Kidney Bleeding, Gall Stones, &c. A pronounced alleviation in all cases will be observed after a few doses have been taken.

Price 10/6 per Bottle.

DIRECTIONS FOR USE.—A teaspoonful, three times a day, in a wineglassful of water, one hour before or two hours after meals; no special diet being imperative.

NOTE.—*It is not claimed for LITHOLYDIUM that it will remove the cause of Muscular Rheumatism, but that it is most efficient in cases of Chronic Rheumatism of the Joints.*

Ask your Chemist to get a bottle for you from

BARCLAY & SONS (LIMITED),

95, Farringdon Street, London.

A MAN went home the other night and found his house locked up. After infinite trouble he managed to gain entrance through a back window, and then covered on the parlour table a note from his wife, reading, "I have gone out. You will find the key on the side of the step!"

A CENTRAL SHOT.—"Now, Johnny, if six men can do a piece of work in one day, how long will it take one man to do it?" asked a New York

teacher of a sharp little boy. "The school teacher is a blamed fool if he thinks I can answer that question," whispered Johnny in a low voice to the next boy. "Speak out, Johnny; I dare say you are right," replied the pedagogue.

"Yes," said the young clergyman, "I always said I would marry that girl, and I am going to do it—but to another fellow. The only consolation I get out of the affair is the f.e."

CAUTION —When you ask for a Bottle of HALL'S "LUNG RESTORER" DON'T BE PERSUADED to accept anything else, as any Chemist not having it in stock can procure it for you. Upon the outside wrapper of every genuine Bottle appears my Trade Mark (the figure of HOPE) and Signature.

DOES NOT CONTAIN LAUDANUM, OPIUM, OR MORPHIA.

Thousands of Testimonials have been received from grateful purchasers.

IT NEVER FAILS.

POST OFFICE INFORMATION.

RATES OF POSTAGE.

To and from all parts of the United Kingdom, for prepaid letters:—

Not exceeding 1 oz.	1d.
Excd. 1 oz. but not excd. 2 oz.	1½d.
" 2 oz. "	4 oz. 2d.
" 4 oz. "	6 oz. 2½d.
" 6 oz. "	8 oz. 3d.
" 8 oz. "	10 oz. 3½d.
" 10 oz. "	12 oz. 4d.

and so on at the rate of ½d. for every additional 2 oz. A letter posted unpaid will be charged on delivery with double postage, and a letter posted insufficiently prepaid will be charged with double deficiency. An Inland Letter must not exceed 1 foot 6 inches in length, 9 inches in width, or 6 inches in depth.

REGISTRATION.

By the prepayment of a fee of 2d. any letter, newspaper, or book-packet may be registered to any place in the United Kingdom or British Colonies. The Post-Office will not undertake the safe transmission of valuable enclosures in unregistered letters; and unregistered letters found to contain coin will, on delivery, be charged with a registration fee of 8d.

INLAND REGISTRATION AND COMPENSATION.

The Postmaster-General will (not in consequence of any legal liability, but voluntarily, and as an act of grace), subject to the rules of the Post Office, give compensation up to a maximum limit of £25 for the loss and damage of Inland Registered Postal Packets of *all kinds* upon prepayment of a fee in addition to the postage. This fee either consists of or includes in each case the ordinary registration fee of 2d.; and the scale of fees and the respective limits of compensation are as follows:—

Fee	Limit of Compensation.
2d.	£5
3d.	£10
4d.	£15
5d.	£20
6d.	£25

Every article presented for registration should be marked with the word "Registered," and with the amount of the fee proper to the value up to which the sender desires to secure compensation, thus: "Registered 2d."; "Registered 3d."; and so on.

The sender of an inland registered letter, parcel or other registered postal packet, may obtain an acknowledgement of its due delivery to the addressee by paying in advance, at the time of posting, a fee of 2d. in addition to the postage and registration fee.

The loss of a registered article (as it can be traced through its whole course) is a rare occurrence. Nevertheless large sums of money should not be sent through the post, as the only compensation given for loss of coin is £2.

REGISTERED ENVELOPES

Are sold at all Post-Offices, and by rural messengers, according to size, from 2¼d. to 3d. each.

POSTAGE ON INLAND REGISTERED NEWSPAPERS.

Prepaid Rates. — For each Registered Newspaper, whether posted singly or in a packet—One Halfpenny; but a packet containing two or more Registered Newspapers is not chargeable with a higher rate of postage than would be chargeable on a Book-Packet of the same weight, viz., One Halfpenny for every 2 oz. or fraction of 2 oz.

INLAND PARCEL POST.

Parcels not exceeding 11 lbs. in weight are received at any Post Office for transmission between places in the United Kingdom at following rates:—

For a parcel not exceeding 1 lb. 3d.
 " " exceeding 1 lb. in weight and not 2 lbs. 4½d.
 And every succeeding lb. 1½d.
 to a parcel not exceeding 11 lbs. in weight for 1/6
 No parcel is accepted which weighs more than 11 lbs. or is not sufficiently paid.

Maximum length 3 ft. 6 in.; maximum length and girth combined, 6 ft. Example:—A parcel measuring 3 ft. 6 in. in its longest dimensions may measure as much as 2 ft. 6 in. in girth, i.e., around its thickest part.

Certificates of posting in respect of unregistered parcels can now be obtained, which in case of loss will secure compensation up to £2. If the parcel is registered, compensation will be given as in article headed "Inland Registration and Compensation."

FOREIGN AND COLONIAL PARCEL POST.

Parcels may now be forwarded to the British Colonies and Foreign Possessions generally. The reader is directed to make application for this information to the Local Postmaster, or to consult the Post Office Guide, which is published quarterly; the space at command not allowing its being detailed here.

INLAND BOOK POST.

The Book Post rate is One Halfpenny for every 2 oz. or frac-

tion of 2 oz. A Book-Packet may contain not only books, paper, or other substances in ordinary use for writing or printing, whether plain or written or printed upon (to the exclusion of any written letter or communication of the nature of a letter), photographs, when not on glass, and anything usually appertaining to such articles in the way of binding and mounting or necessary for their safe transmission by post, but also *Circulars* when these are wholly or in great part printed engraved, or lithographed.

Every Book-Packet must be posted in a cover open at both ends, to admit of the contents being easily withdrawn for examination.

A Packet posted wholly unpaid will be charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.—No Book-Packet may exceed 5 lbs. in weight, or 1 ft. 6 in. in length, 9 in. in width, and 6 in. in depth.

POST-OFFICE ORDERS.

On September 1st, 1886, a considerable reduction in the Rates of Commission on Money Orders was effected. The Commission is as follows:—

For Sums under £1	2d.
" of £1 and under £2	3d.
" £2 " £4	4d.
" £4 " £7	5d.
" £7 " £10	6d.

Fractional part of a penny not admissible. No Single Order granted for more than £10.

POSTAL ORDERS.

Postal Orders are now issued on the following terms:—

1s. .. ½d.	4s. 6d. .. 1d.
1s. 6d. .. ½d.	5s. .. 1d.
2s. .. 1d.	7s. 6d. .. 1d.
2s. 6d. .. 1d.	10s. .. 1d.
3s. .. 1d.	10s. 6d. .. 1d.
3s. 6d. .. 1d.	15s. .. 1½d.
4s. .. 1d.	20s. .. 1½d.

Broken amounts may be made up by the use of Postage Stamps, not exceeding 5d. in value, affixed to the *face* of any one Postal Order.

Postal Orders are not payable outside of the United Kingdom, except at Malta, Gibraltar, and Constantinople.

POSTAL TELEGRAMS.

Charge throughout the United Kingdom 6d. for twelve words; names and addresses of sender and receiver included. Usually, however, there is no necessity to telegraph sender's address. Each additional word, ½d. Numbers in addresses counted as one word.

A REAL BLESSING TO MOTHERS.

The Dangers and Difficulties of INFANTILE TEETHING
are reduced to a minimum by using

MRS. JOHNSON'S AMERICAN SOOTHING SYRUP

A perfectly Harmless and Non-Poisonous Embrocation for
CHILDREN CUTTING THEIR TEETH.

MOTHERS who value the health and comfort of their infants, no less than the value of quiet nights for themselves, should always have a bottle of Mrs. Johnson's American Soothing Syrup at hand during the Teething period.

Mrs. Johnson's American Soothing Syrup has been in use for over eighty years, and has been the means of saving thousands of children from fits and convulsions.

Mrs. Johnson's American Soothing Syrup is a delicious balsamic embrocation, which, rubbed on the gums according to the directions, opens the pores and assists the passage of the Teeth.

Mrs. Johnson's American Soothing Syrup contains nothing that can injure the most delicate infant, and is, therefore, recommended in preference to "Soothers," which have to be taken internally, as these latter usually depend for their effect on some, more or less, dangerous narcotic, which may relieve the little sufferer for a time, but will not remove the cause, and may prove disastrous to the general health.

Price 1/1½ per Bottle.

KEPT BY ALL RESPECTABLE CHEMISTS.

SOLE PROPRIETORS:

BARCLAY & SONS (Ltd.), 95, Farringdon Street, London.

DREDGE'S HEAL-ALL

For Muscular Rheumatism.

DREDGE'S HEAL-ALL

For Lumbago. For Chilblains.

DREDGE'S HEAL-ALL

For Quinsey and Sore Throat.

DREDGE'S HEAL-ALL

Aromatic and Comforting.

DREDGE'S HEAL-ALL

IS a soft liniment, pleasant in form, velvety and creamy without being greasy, pungent without being biting, is rapidly absorbed into the skin, and is of a peculiarly stimulating, delicious fragrance. On application it immediately imparts a grateful warmth to the part affected, subdues the fever which invariably accompanies pain, and gradually *draws out* the gnawing ache peculiar to all rheumatic and sciatic complaints. Indeed, the very sight of old DREDGE, in conjunction with a *new* piece of flannel, produces an irresistible lulling, drowsy sense of anticipatory warmth and comfort.

Price 1s. 1½d. and 2s. 9d.

SOLE PROPRIETORS:—

BARCLAY & SONS, Ltd., 95, Farringdon St., London.

“Vinolia.”

For Itching, Chaps, Chilblains, Face Spots, &c.

“For acne spots on the face, and particularly for eczema, it is undoubtedly efficacious. It relieves itching at once.”—*Baby*. 1s. 9d., 3s. 6d., and 6s. per box.

“Vinolia” Soap.

Purest, Safest, Best.

“Of unquestionable excellence, and much in favour with the profession.”—*Brit. Med. Jnl.*

“An ideal soap, delightfully perfumed, and the skin has a velvety feeling after washing with it.”—*Chemist and Druggist*. **Floral**, 6d.; **Balsamic**, 8d.; **Otto of Rose**, 10d.; and **Vestal**, 2/6 per tablet.

“Vinolia” Powder.

“Superseding the old toilet powders, which are apt to cause acne spots on the face by blocking up the pores of the skin.”—*Lady's Pictorial*. 1s. 9d., 3s. 6d., and 6s. per box.

Vinolia Dentifrice

“The Dentifrice is a powder very agreeable to use, and containing ‘Saponin’ as its principal cleansing agent, and is guaranteed to be free from injurious chemicals.”—*The Chemist and Druggist*. **English**, 2s. 6d.; **American**, 1s. 6d.

Vinolia Shaving Soap

“It lathers well, and altogether is most agreeable.”—*Illustrated Medical News*. 1s., 1s. 6d., and 2s. 6d. per stick; flat cakes in porcelain-lined metal boxes, 2s.

Vinolia Shaving Foam

“It lathers freely when applied to the beard, and by its emollient properties acts as a healing protective.”—*The Chemist and Druggist*. **In collapsible tubes**, 1s. 6d.
